

SwipeSimple.

One simple solution. Accept payments on any device, anywhere.

On the go

SwipeSimple is the best mobile payment acceptance experience for small businesses. Accept secure payments with any iOS or Android device.

- Easy-to-use technology to accept EMV Quick Chip, contactless or magnetic stripe payments anywhere
- Offline mode: Accept payments when a wireless connection isn't available
- Works with most iOS and Android phones and tablets

In your store

Easy and secure payments in a countertop retail setting.

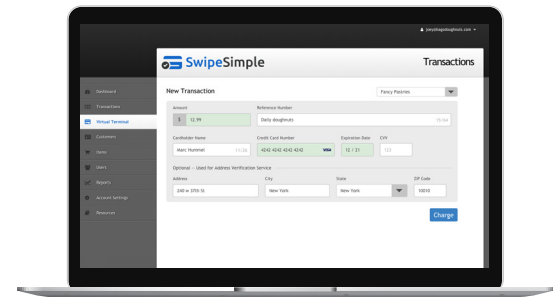

- Works with any iOS or Android device
- Receipt printers, cash drawers, and tablet stands available
- Create favorites pages for faster checkout

At your computer

Accept and schedule secure payments when customer cards aren't present.

- Address Verification Service to reduce fraud and lower transaction fees
- Schedule future payments, offer installment payments, and set up recurring payments
- Securely store customer information and cards on file
- Create invoices to send via email. Customers pay from computer or mobile device.

Tools to improve your bottom line

All SwipeSimple Merchant Web Dashboard users are able to:

- Accept payments over the phone
- Securely save and update customer cards and contact information
- Manage discounts and local tax rates
- Create favorites pages for faster checkout
